

Introducing UltraPro S100

Continuing Excellence in Electrodiagnostic Systems

Reliability, Performance, Portability – Exceptional Value

With over 60 years of proven experience, Natus Neurology introduces the UltraPro S100. Featuring automatic reporting and user-friendly hardware and software, the UltraPro S100 bundles high performance, ease of use, and exceptional value in a compact and reliable package.

Proven Reliability

Built on the 60-year heritage of Nicolet®, Dantec™, Xltek® and Teca® brands, UltraPro S100 was developed in close cooperation with physicians and technologists and continues a tradition of providing reliable and dependable electrodiagnostic equipment.

High Quality

All-in-one electrodiagnostic system with dedicated controls, integrated stimulators and exceptional audio and signal quality.

Exceptional Value

Affordable equipment that is flexible and powerful enough to meet your diagnostic needs without compromising ease of use or quality.

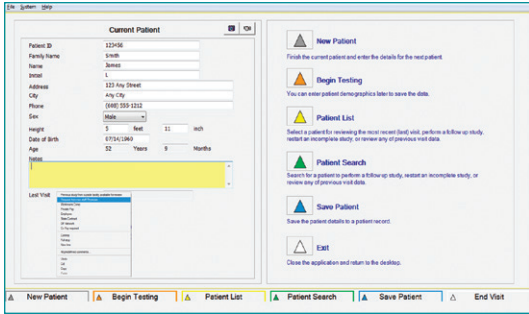

Trouble-Free Installation

With only 3 cables, setup is easy and no installation support is required. Minimal set up time, allows you to start performing studies immediately.

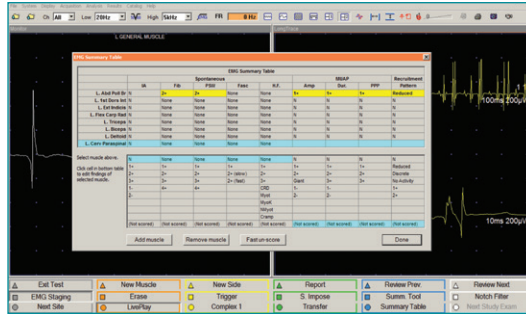

Ease of Use

Simple user interface allows you to navigate through procedures quickly to reduce testing time. On-screen help provides immediate assistance reducing the need for technical support. The UltraPro S100 system includes instructional video classes, virtually eliminating training expenses.

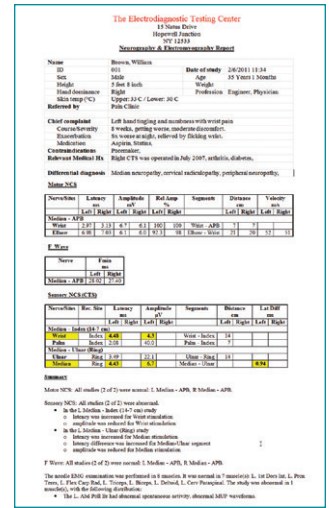

Versatile UltraPro S100 Software for Electrodiagnostic and Nerve Conduction Studies

Simple Workflow

Electrodiagnostics with Scoring Tool

Automatic Summary Generation

Simple workflow

The one-button EMR interface, distinctive function keys, online summaries and built-in reference value database saves time, generating reports faster, improving service to referring physicians and connecting more efficiently with electronic medical records.

Focus on the patient, not the equipment

An all-in-one lightweight system that travels easily in a roller case, UltraPro S100's available triple programmable footswitch supports hands-free operation, and a three-channel amplifier that allows for electrodes to remain in place, accommodating the most common modalities (motor, sensory, needle EMG), reducing test time and improving the patient experience.

Service

Natus Neurology is committed to providing exemplary service to our customers. Our dedicated and experienced Customer Service Team will assist with every aspect of an order. To support our products, we provide factory-trained Field Technicians and Clinical Application Specialists for onsite support. Additionally, we provide an in-house Technical Support Team, staffed with experts, and a strong distribution network in International Markets to offer a wide range of service options. Allowing our customers more time to care for their patients is our goal. Customer loyalty is our reward.

Supplies

Natus Neurology offers a full range of neurodiagnostic accessories and supplies promoting patient comfort. Our dedicated customer service team provides a streamlined order and shipping process to save you time and money.
